

**Washington State University
Financial Disclosure Requirements for Subrecipients
of National Science Foundation (NSF) and Public Health Service
(and PHS FCOI regulated) Projects**

Disclosure Requirement: You have been identified as a subrecipient investigator/key personnel subject to [Washington State University's Financial Conflicts of Interest \(FCOI\) policy](#). Under the Public Health Service's (PHS) FCOI regulation (42 CFR Part 50 Subpart F) and the NSF Proposal & Award Policies & Procedures Guide (PAPPG) requirements, **you must disclose your significant financial interests (SFI) on the attached Form 2 (include those of your spouse/domestic partner, dependent children, and other dependent relatives living in your household that are directly related to the research you are conducting in collaboration with Washington State University)**. If more space is needed to complete this Form, please attach additional pages. All information will be kept confidential.

The primary goal of this process is to promote objectivity by establishing standards that provide a reasonable expectation that the design, conduct, and reporting of research funded under PHS and NSF regulated grants, cooperative agreements and contracts will be free from bias resulting from Investigator FCOIs.

Disclosures must be made:

- When submitting a proposal related to PHS FCOI or NSF regulated funding;
- Within 30 days of discovering or acquiring (e.g., through purchase, marriage, or inheritance) a new SFI. This includes any disclosures that arise between the time the proposal is submitted and an award is made;
- Annually, during the period of award;
- When travel is reimbursed or sponsored (e.g., travel expense paid on behalf of the investigator and not reimbursed to the investigator so that the exact monetary value may not be readily available), related to the investigator's WSU research work (see Question 4 on page 2).

Part 1: Once you complete this 2 page Form, please send to the WSU Office of Research Support and Operations at orso@wsu.edu.

Part 2: Training Requirement: You also are required to complete the CITI online Conflict of Interest Training module **before engaging in research related to this NSF or PHS regulated award and once every four years thereafter**. This online training will take some time to complete, and you will need to email the completed training receipt to our Office of Research Support and Operations at orso@wsu.edu.
